II. Follow-up on Discussion Items from Previous Calls (All)

- NPS asked for an update on VISCREEN modeling. The NDDH intends to run VISCREEN modeling but would appreciate assistance from NPS on modeling procedures. NPS agreed to provide assistance on VISCREEN and deposition modeling and will send information regarding the method to estimate deposition.

III. New Discussion Items (All)

- NPS asked about the NDDH position on comments submitted by NPS regarding the application. NDDH indicated that the issues will be addressed in the NDDH analysis and permit. NPS asked for a copy of the draft analysis and permit and the NDDH agreed to send this to NPS. Update: a copy of the working draft of the Permit to Construct and the NDDH analysis were emailed to NPS on 11/16.
- NPS indicated that they plan to run CALPUFF.

IV. Path Forward

- Status of Application Review (NDDH)
 - o NDDH is moving ahead with final review of the application with an expected public notice period beginning in early December and ending in mid-January.
 - o NDDH is working on final issues with the modeling and is conducting extra modeling runs. NPS asked for a copy of the final modeling and NDDH indicated that a copy will be sent to NPS and EPA.
 - o Future conference calls will be scheduled as necessary.
